INDEX

Abstract, 113, 117
  purpose of, 111–112
  for status report, 113, 114
  style of, and examples, 112–113
Advertising costs, 89–90
Advertising methods, 191
Advisor, team, 4–5
Agenda, team meeting, 74
Alternative (competing) solutions, 10–11
Analyst role, 66
Appendices, 125
Assignment of invention, 155, 156
Audience considerations
  in documentation, 100–101
  in presentation, 135–136, 137
Backing up documents, 99
Backup planning, for presentation, 137–138
Baltimore, David, 34
Blood carrying pipe, 27
Break even point, 196
Budget(s), 13–14
  complementary, 80–81
  contingency planning in, 93–94
  developing, 79–80
  and economic viability analysis, 88–93
  key points of, 78
  project expenses in, 82–88
  references on, 95
  summary of, 94
  types of, 81–82
Business loan financing, 196–197
Business plan, 183
  appendices of, 198–199
  executive summary of, 183
  financial projections in, 191–196
  financing, 196–197
  investor considerations in preparing, 182
management strategy for, 198
  market analysis in, 185–190
  marketing plan in, 190–191
  organizational strategy for, 197–198
  product description in, 183–185
  references on, 199
C-corporation, 197–198
Calendar
  Gannt, 41
  paper or computer, 47
Capital equipment costs (CEC), estimating, 192
Changed minds, delay caused by, 72–73
Citations, reference, 103–104
Co-advisor, team, 5
Communication
  electronic modes of, 76–77
  failures of, delay caused by, 73
  with people outside team, 76–77
  within project team, meetings for, 74–77
Competing solutions, 10–11
Competitor analysis/research, 181, 188–189
Components, cost of, 82, 85
Conclusion, proposal, 123, 125
Confidentiality agreement, 157
  sample, 169–173
Conflict resolution, in team, 70–71
Copyright, 164
  duration of, 166–167
  and fair use, 165–166
  law of, 164
  notification of, 166
  ownership of, 164–165
  protection of, 165
Coreware project, 17
  appendices of, 125
  outline example for, 107
  presentation of, 140–141
prior work discussion sample for, 119
proposal abstract for, 113, 125–126
report abstract for, 114, 125–126
report of, extracts from, 119–121
table of contents sample for, 116
timeline of, writing, 122–124

Cost(s)

advertising, 89–90
of components, 83, 85
and economic analysis, 92–93
ingenueering development, 82, 83–86
equipment, 85
fringe benefit, 83
general and administrative, 82
item, in budgeting, 81
labor, 83
market research, 90–92
marketing and sales, 82
materials, 83
overhead, 83, 85–86
product support, 92
production, 82
project, determining, 89–92
prototype development, 82, 86–88
of resources, 44
in MS Project, 55–56
services, 83
support, 82
of tasks, in MS Project, 56–57
travel and living expense, 83

Crime, in cyberspace, 28–29
Critical path method, 43
Customer base, identifying, 13–14
Customer categories, 186
Cyberspace, fighting crime in, 28–29

Data collection, in market analysis, 185, 187–188

Deadlines, 40
Decision making role, 66
Decision matrix development, 18
Delay, management of, 71–74
Design approach, in proposal, 121
Design patent, 153
Design process, 1–2
advisor selection in, 4–5
coworkers in, 5
decision matrix development in, 18
design alternatives in, 14–15, 17
design specification development in, 16–17
documentation in, 22–23
implementation in, 19–20
presentation of work in, 22–23
project management and scheduling in, 15
project selection in, 5–14
references on, 25
simulation and modeling in, 19

steps of, 2–3
success criteria definition in, 17–18
summary of, 24–25
team selection in, 3–4
testing and verification in, 20–22

Design protection, 148–175, see also Intellectual property

Design specification development, 16–17

Documentation, 97–98, see also Presentation

audience considerations in, 100–101
backup and saving, 99
draft of, 108
emphasis and delimitation in, 102–103
engineering notebook in, 98
final, preparing, 109–110
final revision of, 109
format, layout, and style choices in, 99–102
graphics in, 104–106
key points of, 96
outline development for, 106–108
peer review of, 109
presentation of, 110
printing or copying, 109–110
proofreading and revision of, 108–109
reference citations in, 103–104
references on, 132–133
responsibility delegation in, 99
software for, 99
style of writing in, 100
successful, 99–106
at team meetings, 75
types of, 110
abstract, 111–114
executive summary, 114–115
memorandum, 110–111
pre-proposal, 111–113
proposals and reports, 115–126
test plan, 126–129
test report, 130
user documentation, 131–132
of work, 22–23, 34
writing and designing in, 98

Draft writing, 108

Drug testing, in other countries, 30–31

E-mail communication, 76
Economic viability, 13–14
Economic viability analysis, 88–93
presentation of, 93
in proposal, 121–122
for single customer projects, 93
Editor, of documentation, 99
Electronic communication, 76–77
Engineering development, example of, 84
Engineering development costs, 82, 83–86
Management, project, 37–38
  formal, 38–39
  goal definition in, 38
  key points of, 36
  resources in, 38–39
  scheduling in, 15, 39–63 (see also Scheduling)
  time frame set up in, 38
Management team, 198
Market analysis, business plan, 185–190
  competitor identification in, 188–189
  data collection in, 185
  growing market identification in, 185–186
  and market plan, difference between, 185
  percentage of target market after 5 years operation in, 189–190
  target market characterization in, 186–188
  target market identification in, 186
Market need
  analysis of, 10–11
  unmet, 9–10
Market research costs, 90–92
Market survey/interview, 187–188
  sample, 91
Marketing plan, 190–191
  and market analysis, difference between, 185
Maximum cumulative loss (MCL), 196
Meetings, of team members, 74–77
Memorandum, 110–111
Microsoft Project, 48
  scheduling using, 49–62
Modeling, 19
Natural resources, consideration of, 30–31
Network, of tasks, 41, 42–43
  in MS Project, 51, 52, 53
New invention, as defined by patent law, 159
New Jersey Pinelands, 31
Nondisclosure agreement, 155
  sample, 169–173
Nonprovisional application, for patent, 158
Norming, 69–70
Organizations, types of business, 197–198
Organized list scheduling, 44–45
Organizer role, 67
Outline development, for documentation, 106–108
Parallelism, in presentation, 139–140
Partnership, 197
Patent(s)
  application for, 154
    initialization of, 158–159
    required information in, 160–162
  design, 153
  as exclusionary right, 162–164
  fee for, 160
  first, in United States, 151
  first to file vs. first to invent, 158
  limits of, 154
  national defense, 154
  need for, determining, 159–160
  overview of, 118–119
  ownership of, 154–157
  plant, 154
  provisional and nonprovisional application for, 157–158
  utility, 153
Patent Act, of United States, 151–152
Patent attorney, or agent, 155
Patent law, and practice, 152–153
Patent Office, United States, 152
Patent search, 159–160
Patent system, historical development of, 152
Patentability, determination of, 159–160
Peer review, of documentation, 109
Performing, 70
Personal computer, 11
Personal digital assistant, 9
Personal resource analysis, 181–182
Photographs, in documentation, 105–106
Plagiarism detector, 27–28
Planning, start-up business, 177–199, see also Business plan
  analysis in, 181–182
  key points regarding, 176
  process of, 182–199
  references on, 199
Plant patent, 154
Pre-proposal, 111–114
Prefatory material, 117
Presentation, 22, 23–24, 110, 135, 143–145, see also Documentation
  audience considerations in, 135–136, 137
  audience persuasion in, 135–136
  backup planning for, 137–138
  beginning introductions in, 144
  clothing adjustment in, 142–143
  concluding, 145
  development of, 60
  of economic analysis, 93
  format for, 138–139
  key points of, 134
  parallelism in, 139–140
  practicing, 142–143
  question answering in, 144–145
references on, 145–146
resources for preparation of, 140–142
slide, 136–137
timing of, 144
Presenter role, 67
Primavera, 48
Printing document, 109–110
Prior work discussion, 119–120
Problem selection, see Selection
Problem worth solving, 5
Procrastination, delay caused by, 73–74
Product description, 183–185
features of, according to type of product, 184
Product support costs, 92
Proforma, definition of, 191–192
Project Management Institute, 37–38
Proofreading documentation, 108–109
Proposal(s), 115–126
abstract of, 113–114, 117
appendices of, 125
body of, 117–118
design approach and method of solution in, 121
economic analysis in, 121–122
environmental and social impact discussion in, 123
executive summary of, 117
Gantt chart in, 122–123
introduction or problem statement of, 118
patent, product, and literature review in, 118–121
prefatory material of, 117
and reports, differences between, 125–126
summary, conclusion, and future work discussion in, 123
table of contents of, 116
time line in, 122–123
title page of, 115–116
Research schedule, 59
Resource(s), 38–39
assignment of, 43–44
cost of, 44
in MS Project, 55–56
graphs, in MS Project, 54–55
hours, in MS Project, 53–54
tables, in MS Project, 51, 53
usage hours, in MS Project, 55
Resource leveling, 54–55
Revising documentation, 108–109
Risks, of project, 14
S-corporation, 197
Safety, of product, 31, 32
Satellite radio programming, 8–9
Saving documents, 99
Scheduling, 15, 39–40, 59
contingency planning in, 93–94
deadlines in, 40
levels of, 44–46
logical network of tasks in, 41, 42–43
references on, 63
resource assignment in, 43–44
resource cost in, 44
senior design example of, 49–62
software programs for, 45–46, 48
summary of, 61–62
tasks in, 40–41
time to complete tasks in, 41, 43
tools for, 47–49
Selection, of project, 5–7, 58
feasibility evaluation in, 7–14
problem statement in, 6–7
Senior design schedule example, 49–62
Service mark(s), 167–168
Shared folder communication, 76–77
Simulation, and modeling, 19
SM (service mark), 167–168
Social implications, in design, 29–30
discussion of, in proposal, 123
Software, for documentation, 99
Software multiplication routine, test plan for, 129
Sole proprietorship, 197
Sponsor relationships, 33
Spreadsheets, for scheduling, 49
Start-up business planning, 177–199
Statement, project, 6–7, 58–59, 118
Status report, 125–126
abstracts of, 113, 114
outline example for, 126
Storming, 69
Style choices
in documentation, 99–102
in presentation, 138–139
Success, improving chances of, 7–14
Success criteria, defining, 17–18
Summary, proposal, 123, 125
System diagram, sample, 106
Table of contents, 116
Tables, in documentation, 104–106
Taking minutes, of team meetings, 75
Talking Book
abstract samples for, 112–113
complete budget for, 87
final budget for, 86
patent overview sample for, 118–119
presentation of, 141–142
prototype budget for, 86–88
testing the, 21–22
Target market analysis, 186–190
Task(s), 40–41
clarification of, for team members, 68
completion of, 41, 43
cost of, in MS Project, 56–57
detail of, in MS Project, 57
overview of, in MS Project, 49–51
underestimation of, project delay in,
72
Team, project, 65
communication within, 74–77
conflict resolution within, 70–71
delay, management of, 71–74
dynamics of, 69–70
key points regarding, 64
meetings of, 74–77
presentation practice with, 142
references on, 77
role assignment in, 68
role rotation in, 68
roles in, 58, 66–68
selection of, 3–4, 57–58
summary of, 77
task clarification and responsibility for, 68
Team leader role, 66
Telecommunications Act (1996), 31
Telephone communication, 76
Test marketing, 186–187
Test plan, 126–129
detailed, 128–129
outline example for, 127
Test report, 130
Testing, and verification, 20–22
time frame, setting up, 38
time line, in proposal, 122–123
timing, of project, 11–12
Title page, 115–116
TM (trademark), 167–168
Topic selection, see Selection
Total external financing, calculating, 196
Trade secret, protection of, 150
Trademark(s), 167–168
duration, 168
marks excluded from registration as,
168
TurboProject LT, 48
Turnaround point, company, 196
Unit sale process, describing, 184–185
Unkowns (unks, un-unks), 14
Unmet market needs, 9–10
User documentation, 131–132
Utility patent, 153
Value chain, 8–9
VCR proposal
sample outline for, 108
sample title or cover page, 116
Venture capital, availability of, 177–179
Voice-activated appliance controller
economic analysis of, 92–93
engineering development budget for,
84
production cycle expenses for, 89
Web based scheduling, 47–49
Web page communication, 77
Widget, 16, 18
product illustration for, 132
test procedure detail for, sample, 128
test procedure overview for, sample,
127–128
Women, as business entrepreneurs, 178
Writer role, 68
Writing, and designing, 97–98, see also
Documentation
Writing style, 100
